

# 2018 National WebEx Medicare Advantage coding training

Optum offers a variety of coding and documentation courses for Medicare Advantage. Classes are available for both billers and coders (with CEU credits) as well as classes specifically for providers (without CEU or CME credits). Please see the calendar below.

### CEU information

For presentations with CEUs available, these sessions have been pre-approved by AAPC. To receive credit, you must be logged into the WebEx using the unique link emailed to you based on your registration information. You must stay logged in for the duration of the session. *Those attending via phone only, and not using the WebEx, are not eligible for CEU credit.* If you meet the requirements discussed during the presentation, you will receive your CEU via email in approximately 21 business days.

### Registration

1. Click on the link below of the session you would like to attend. Choose your time zone and click "OK".
2. A new window will open. Scroll to the bottom of the invitation and fill out registration form. Select "register".
3. You will receive a confirmation email with instructions for joining the session. To add this session to your Outlook calendar, please scroll down to the bottom of your confirmation email and click on the link.

**Each registration confirmation link is unique to the participant, multiple users can not share a link as the system will only allow one user to log in.**

### Troubleshooting information for those who do not receive a registration confirmation link

1. Check with your IT administrator to ensure that your "Spam" filter will allow emails from the following two addresses:  
mda.webex.com and \*.webex.com
2. Once these filters have been changed you can call WebEx tech support at 866-569-3239 and ask them to resend the confirmation email.

### Troubleshooting information for those unable to access the WebEx via computer

1. Go to <https://www.webex.com/test-meeting.html> to test if your computer is compatible with WebEx. Install additional programs needed.
2. If still unable to access the training, Contact WebEx tech support: 866-569-3239. You will need to provide the session ID number which is only located in the registration link or confirmation you receive via email. It is not located on this sheet.

### Starting your training session

1. Click on the link in the confirmation email you received.
2. A WebEx window will open in your browser and you will be prompted to provide some identifying information.
3. After your identifying information has been entered, you should be logged into the Webex and able to see the visual portion of the training. Call the phone # included with your registration confirmation listed on this sheet with the corresponding training date.

**To listen to the WebEx, you must be listening with a telephone. The sound will not come through the computer.**
